PROPOSED SALE TABLED. Special City Meeting Takes No Action on Clauses Relating to Sale of Build-

About 200 voters attended the special town meeting held Monday evening to vote upon the proposed sale of the buildings adjacent to the high school at the corner of Prospect and High streets and the old town hall on Church street and to decide whether to continue the present electric lighting system in South Windham and to install one additional light.

Town Clerk Frank P. Fenton called the meeting to order shortly after 8 o'clock and M. E. Lincoln was chosen moderator. P. J. Twomey immediately rose and moved that the first and second clauses in the warning relative

second clauses in the warning relative to the sale of the town's property be tabled. P. A. Capen amended to read that no action be taken. George F. that no action be taken. George F. Taylor spoke in opposition, saying that the three buildings near the high school are in an unsanitary condition. The net income was only \$350 to \$400 and a large expenditure was needed if they were retained. P. J. Danahey said there was no need of extra room at the high school and the income received from the property whatever it was, was so much to the good.

C. A. Capen said it was time for the taxpayers to call a halt on expenses and the property should be kept until the school actually needed the land. First Selectman P. C. Chesbrough explained the reason for calling the meeting, stating that considerable money

plained the reason for calling the meeting, stating that considerable money must be spent on the property, and the board did not wish to do so without seeking the opinion of the town. The condition of the buildings was such that if privately owned they would constitute a nuisance. F. B. Harvey read the figures of income and outgo for the past three years, showing the property netted from 3 1-2 to 4 per cent. on an investment of \$10,000, the original purchase price. On viva voce the ayes had it and no action was

taken.

The third clause, providing for an additional electric light in South Windham and the continuation of those now in use, was then carried and the meeting adjourned.
